

EYE3 Weatherproof Outdoor Camera Housing

E3C-HSING

This high quality weatherproof camera housing with wall mount bracket is the perfect solution for protecting your camera investment. This universal camera housing can be used with standard CCTV cameras as well as Eye3Data fixed view cameras.

Housings can extend the life of your cameras by protecting them from accidental damage and vandalism. Plus, by protecting the camera lens from dust, smoke and debris, the camera view will remain clear. Camera housings are recommend for indoor applications where the camera is exposed or within reach of the public.
